

MS-900 Self-Adhesive Cable Tray Label

Technical Data

AL3-050-215

CAB-015-200

Description

MS-900 Self-Adhesive Cable Tray Labels are designed for long-term indoor use. They are manufactured from premium grade thermoplastic with a permanent pressure sensitive adhesive. These labels can be furnished individually or pre-cut in sheet form. MS-900 Self-Adhesive Cable Tray Labels are designed to adhere to a variety of substrates with smooth flat surfaces. Surface preparation prior to installation is necessary for label longevity.

Optional MS-1000 over laminate is recommended for outdoor use. This provides not only additional chemical resistance but also excellent UV and fade resistance for extended outdoor durability.

Physical and Chemical Characteristics

Base Material:	Premium-grade Thermoplastic
Material Thickness:	.004" (.1 mm)
Service Temperature:	-50°F to 180°F (-45°C to 82°C)
Application Temperature:	+50°F (10°C)
Chemical Resistance:	Good
Water Resistance:	Excellent
Expected Outdoor Durability:	Indoor Use Only
Storage Durability:	Up to 2 Years
Abrasion Resistance:	Good
Mounting:	Permanent pressure sensitive acrylic adhesive backing
Text Height:	Customizable
Typical Sizes:	Customizable
Standard Colors:	Customizable
Options:	Custom Sizes Available
Chemical Table	Acid Resistance: Good Alkalis Resistance: Good Salts Resistance: Good

Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.
